JOHNSON MEN ALSO IN LINE

Supporters of Minnesota's Governor
in Denver Convention Pledge Al-
liance to the Democratic Candidate.
Johnson to Campaign for Bryan.

Lincoln, Neb., July 13.—"You may
rely on the sincere and earnest sup-
port of the New York Staats Zeitung."

This telegram, sent by Herman Rid-
der, the New York editor, from some
Kansas town, the name of which
could not be deciphered, was received
by W. J. Bryan at Fairview and al-
though Mr. Bryan made no comment,
his pleasure was evident in the buoy-
ant tone in which he read the state-
ment.

It was Mr. Ridder who, before the
Denver convention, called here with
the announced intention of asking
Mr. Bryan to withdraw from the field
on the grounds, in Mr. Ridder's opin-
ion, that Mr. Bryan could not win in
November. Lincoln Democrats de-
clare that Mr. Ridder did not press
this point, however, upon visiting
Fairview. He departed from Lincoln
in a happy frame of mind with Mr.
Bryan's "Ok" on his free wood pulp
plank.

Dr. P. L. Hall, Nebraska's new
member of the national committee,
discussed with Mr. Bryan arrange-
ments for Mr. Bryan's meeting with
the committee here. The qualifica-
tions of a number of men for the po-
sition of chairman of the committee
were talked over informally, but their

HERMAN RIDDER.

names were not to be learned either
from Mr. Bryan or Dr. Hall. There
is a disposition to leave the final se-
lection to Mr. Bryan. Dr. Hall ad-
mitted that he had in mind a man
who, he thought, would best fill the
office and that Mr. Bryan had another.
However, it is predicted that the end
of the meeting here will see the chair-
manship a settled fact and many de-
tails of the coming campaign mapped
out, at least in outline.

Campau May Be Named.

Later Mr. Hall said he thought
it safe to say the new chairman would
be one of the following: D. J. Cam-
pau, Michigan; J. E. Lamb, Indiana;
Ollie James, Kentucky, or J. H. At-
wood, Kansas.

Mr. Bryan has received numerous
tenders of the services of speakers,
nearly all of them, if their letters are
given full credit, being spellbinders
of resistless appeal. Musicians also
have been early on the ground, to-
gether with men who make banners
and buttons and get out printing and
pictures. Such of these matters as
deserve attention will be turned over
to the national committee.

Among Mr. Bryan's supporters
whose activities will be given the
widest range possible is Governor
Johnson of Minnesota. This word
was given to some forty or fifty of
the Johnson cohorts who went from
Minnesota to Denver to fight for the
governor and called at Fairview. In
token of surrender of the Johnson
forces Lester Elwood gave up his flag
with Johnson's name on it to Mr. Bryan,
the latter declaring that it should
have a conspicuous place among the
trophies of Fairview.

"The fight is over and we're with
you now," was the assurance given
Mr. Bryan by Congressman Hammond,
who placed Governor Johnson in nom-
ination.

This delegation and one which was
returning to Cleveland, O., were the
only formal visitors at Fairview, both

being shown through the Bryan home
and chatting informally with the can-
didate.

Olympic Contests in London.

New York, July 13.—The chief in-
terest of American athletes and sport
lovers this week will be centered in
London, where America's picked ath-
letes will compete for the Olympic
championship against the tried cham-
pions of the old world. The Ameri-
cans enter the fortnight's competition
with confidence and every prospect of
success, heartened by the notable
successes during the past week of
America's marksmen against the se-
lected sharpshooters of Great Britain
and the continent.

SLAYER A SUICIDE.

Man Who Killed a Minnesota Woman
Ended His Own Life.

Duluth, July 13.—The slayer of
Mrs. Ada Loos was Max Hochworth
of Duluth and he defeated the hands
of justice by turning upon himself the
same weapon that he shot her to
death with on the lonely Pike lake
road.

He went into the bushes a short
distance from the road and there shot
himself through the mouth. The bul-
let passed through his brain and death
must have been instantaneous.

The police department had thrown
out a net that was calculated to catch
Hochworth, for he was all the time
suspected of the crime, and it was
believed that he would make a strong
play to escape.

Chief of Police Troyer, with a de-
tail of men and a number of blood-
hounds, visited the scene of the trag-
edy. The hounds after a time got the
scent of the murderer and quickly
led the officers to the dead body.

Hochworth had contemplated es-
caping, for a bundle of food was
found near the body.

HEAVY RAIN IN NEBRASKA

Causes Bad Washouts on Several
Railroads.

Norfolk, Neb., July 13.—The heav-
iest rainfall in the history of this
section occurred when five and a half
inches fell within three hours. All
the railroads running through Norfolk
are tied up. Bad washouts occurred
on the Northwestern east of here, on
the Chicago, St. Paul, Minneapolis
and Omaha between here and Sioux
City and on the Union Pacific be-
tween here and Columbus. Several
trains are stalled here and a large
number due here are unable to get in.
Private property was damaged in
many places, but nowhere of a seri-
ous nature so far as reported. The
rain extended west for about 400
miles and north to the South Dakota
line. It was the heaviest, however,
in the eastern portion of the state.

MURDER IS SUSPECTED.

Badly Decomposed Body of a Young
Woman Found.

Troy, N. Y., July 13.—The badly de-
composed body of Miss Hazel I. Drew,
nineteen years of age, of this city,
was found in a pond at Leasport, a
few miles east of here. Miss Drew
had been missing for over a week.
Murder is suspected, as the woman's
skull was fractured and the coroner
holds that death was due to concus-
sion of the brain. The only clue to
the supposed crime is the fact that
an automobile was seen to pass a
roadhouse in the vicinity on the morn-
ing of July 4 and proceed in the di-
rection of the pond, returning in
about the time it would take to make
the trip. It came back rapidly and
took a roundabout way toward Al-
bany.

Shriners in St. Paul.

St. Paul, July 13.—St. Paul, fettered
with the luxuriant colors of the Ori-
ent, enmeshed in silken pennants of
red, green and yellow, lies at the
mercy of the vast army of the Cres-
cent and Star. Already the advance
guard of the mighty army has entered
the city and eleven of the scattered
temples are encamped within the city
gates and soon fifty-seven tribes with
their armed escorts will have arrived,
and the grand army of the Mystic
Shrine will be assembled.

Town Marshal Murdered.

Fort Dodge, Ia., July 13.—Gowrie,
a small town twenty miles south of
here, was the scene of a murder when
Marshal Tom Nicholson was killed in-
stantly by a bullet from a revolver
fired by Wilbur Carr, aged eighteen.
The murder was committed on the
streets early in the evening. The
shooting was the result of the mar-
shal's interfering in a street brawl.
Carr was arrested.

REVOLT IN HONDURAS

Presages Further Trouble in
Central America.

PLAN TO INVADE NICARAGUA

President Cabrera of Guatemala and
Former President Bonilla of Hon-
duras Would Overthrow Govern-
ment of Sister Republic.

Puerto Cortez, Honduras, July 13.—
The fighting which has occurred
about Gracias and Choluteca bears
the earmarks of organized revolution.
The reports say the attacks on these
towns were begun by small bodies of
armed men, who were at first re-
pulsed by government troops, but who
returned to the attacks and finally
won. Although the captors of these
towns were said to be men from Sal-
vador, a significant fact is that pre-
ceding their appearance in Honduras,
officials of this government claimed
to have received notice of a pre-con-
certed plan for uprisings throughout
Honduras. To nip these uprisings in
the bud several arrests were made
here and at San Pedro before the
Honduran frontier was invaded from
Salvador. President Savila has de-
creed the republic in a state of war
and has begun to concentrate Hon-
duran troops as rapidly as possible
in order to beat off the invaders.

Reports place two of the leading
personalities of the five republics at
the head of the present imbroglio.
Estrada Cabrera, president of Guate-
mala, and Manuel Bonilla, who was a
year ago deposed by a revolution from
the presidency of Honduras, are the
alleged leaders, and while the
reports differ as to the details of
their plan, an attack on Nicaragua is
said to be their aim. It is stated that
if Honduras is gained possession of
the revolutionists will again make
Bonilla president and that General Do-
mingo Vasquez will march at the
head of an army into Nicaragua. If
victorious, he is to be made president
of Nicaragua.

VIEWS OF JUDGE TAFT.

Those on Anti-Injunction Revealed in
a Statement Just Issued.

Chicago, July 13.—A statement given
out by the industrial headquarters
established by Mr. Taft's campaign
managers referring to Mr. Taft's per-
sonal anti-injunction views, says:

"The injunction as it was used in
labor cases generally is repugnant to
our American sense of fairness. Judge
Taft stands on record with the unions
as opposed to it in its present form, a
position that many others who had ad-
vised against the injunction have not
dared to take, which strongly empha-
sizes the difference between talking
about a matter and being ready to do
it.

"He (Judge Taft) has stated re-
peatedly that no injunction should be
granted until both parties to the case
have been heard. If this suggestion
ever becomes law the labor injunction
will be put out of business, for right
to leave the services under certain
conditions has been established firmly.
The dissolution of each labor in-
junction issued against a strike in
wage controversies directly between
the employers and the employees
proved it."

Hot Springs, Va., July 13.—Judge
Taft was shown the statement given
out by the industrial headquarters in
Chicago concerning the "anti-injunction
platform" of the Republican plat-
form adopted at Chicago.

"I know nothing of the statement
to which you refer," said Mr. Taft.

"My views on the subject of in-
junctions have been expressed in my
judicial opinions and in my political
speeches and public addresses, but I
have neither made nor authorized on
my behalf any expressions on the sub-
ject since the Chicago convention.
What may be said by some advocate
of mine, based on my opinions or my
speeches, of course I cannot say, and
could not now be expected to com-
ment on. I expect to treat of the
general subject in my speech and let-
ter of acceptance."

Panic in a Church.

Duluth, July 13.—A stampede was
created in the Catholic church at Bi-
wabie, where moving pictures of the
Passion play were being given, when
some of the celluloid films blazed up
the darkened rooms. About a dozen
people were injured in the panic and
one woman, Mrs. Joseph Attlich, is so
seriously hurt that fears are ex-
pressed for her recovery. She jumped
out of a window ten feet to the
ground.

Two Young Men Drowned.

Milwaukee, July 13.—Two young
men, apparently from good families,
were drowned while swimming in Mil-
waukee river.

FOUR PERSONS DROWNED

Boats Overtaken in Two Different
Lakes in Minnesota.

Duluth, July 13.—News has been
received here from Deer River that
Miss Etta Kennedy, daughter of Mrs.
Frank Kennedy of this city, and Ja-
cob Woodruff of Deer River were
drowned on Ball Club lake. Another
man who was with them in the canoe
saved himself by clinging to the craft
for more than twelve hours before he
was discovered and rescued.

Miss Kennedy was a stenographer
for a real estate firm and had been
visiting friends near Deer River. She
was on her way to take a train when
the canoe was overturned. She was
eighteen years old.

Two Austrians of Chisholm, Minn.,
were drowned in Seven Mile lake.
Their names are Ignar Sysbolitz and
John Jannazak. A third man escaped.
Their boat was capsized.

Sixteen Arrests Made.

Great Falls, Mont., July 13.—Six-
teen arrests have been made at Cul-
berson in connection with the murder
of John A. Hayes and his eleven-year-
old daughter over a squatter's claim,
which had been located by Walter
Long and later taken up by Hayes
on the ground that Long had aban-
doned the claim. At the inquest Mrs.
Hayes positively identified Walter
Long and his brother Milo as among
the attacking party.

Three Deaths in St. Paul.

St. Paul, July 13.—Three St. Paul
people, two of them directly and one
of them indirectly, were claimed as
victims by the heat. They are Jer-
ry Sullivan, street sweeper, collapsed
and died near his home. Mrs. Julia
Shaughnessy died of exhaustion. Sam-
uel Hammerlee dropped from wag-
on, overcome by heat, the wheels
crushing out his life.

Two Deaths From Heat.

New York, July 13.—New York was
treated to the hottest day of the year,
the thermometer reaching 97.7 de-
grees. Only two deaths from heat
were reported by the police, though
there were several prostrations.

TELEGRAPHIC BREVITIES.

Ten thousand Elks of America are
in Dallas, Tex., attending the conven-
tion of the grand lodge.

Delegates are arriving in Columbus,
O., for the Prohibition national con-
vention, which will be held there next
Wednesday and Thursday.

In Minneapolis George Francis, a
teamster, was prostrated by heat
while driving his team and died short-
ly afterwards at his home.

Thomas J. Bryce, known to sports-
men the country over as president of
the Columbus American Association
Baseball club, died at Columbus, O.

Thomas W. Haskins, the newly ap-
pointed American consul at Swatow,
China, died suddenly at Peltahio, a
seaside resort. He was appointed
from California.

Walter Stewart, ten years of age,
and living with his parents in Minne-
apolis, was drowned at Wildwood, an
amusement resort near St. Paul. The
body was recovered.

A service in memory of Grover
Cleveland was held at the Chicago
auditorium under the auspices of the
Irish club, Jacob M. Dickinson be-
ing the chief speaker.

While bathing in the Chippewa riv-
er at Montevideo, Minn., Karl Kiesel,
a young man of twenty years, was
seized with cramps and was drowned.
His body was recovered.

Just Take a Look

It will pay you well to take a look at the
bargain in that we are display-
ing in the West window. No we won't
tell you what it is—you must see it to ap-
preciate the worth of it. Some are worth
50c some 60c and all sell for . . . Now
that's all we'll tell. You take a look.

FOUR MEN DROWNED

Boat Overturns During Severe
Storm at Baltimore.

FOUR OTHERS ARE MISSING

Three Women and a Man Are Sup-
posed to Have Perished in the Pa-
tatsco River—Quartette of Massa-
chusetts Men Drowned.

Baltimore, Md., July 13.—Five men
are known to have been drowned and
three women and a man are believed
to have met a like fate when a severe
wind and rain storm passed over the
harbor of this city. Eight men in a
rowboat were endeavoring to reach
Fort McHenry when the boat cap-
sized. Peter Deltrich, William Dela-
cour, Joseph Lohmiller and Edward
Simmons were drowned. The others
righted the boat and reached the fort
safely.

The overturning of a boat in the
Spring Gardens brought death by
drowning to John Harrington.

The finding of an overturned row-
boat in the Patatsco river in which
three women and a man were seen
shortly before the storm leads to the
belief that all four were drowned.
None of the bodies has been recov-
ered.

EXPLOSION ON LAUNCH.

Brings Death to Four Residents of
Massachusetts.

Marion, Mass., July 13.—Four prom-
inent summer residents of this town
and Falmouth met death through an
explosion on board a forty-five foot
launch off here. Two survivors were
picked up after having been in the
water for twelve hours. The dead
are:

Rolland Worthington, Boston; John
T. Trull, Woburn; Joseph S. Beal,
Milton; George Savory, Marblehead,
captain of the launch.

The saved are: A. P. Tarbell, Mar-
blehead; Edward Tucker, Boston.
Tucker, who was clinging to an oar,
and Tarbell, who was supported by a
life preserver, were able to swim,
and they remained together until
picked up by a fisherman.

Neither of the survivors was able
to give the cause of the explosion.
Mr. Tarbell, who owned the launch,
said that the boat started out from
Marion on a short pleasure cruise
and was well out in Buzzards bay
when the explosion occurred. Savory,
the engineer, was blown into the air
and was probably dead when he
struck the water. The boat caught
fire immediately and Tarbell called to
his comrades to leap overboard. He
strapped a life preserver about him-
self and Mr. Tucker seized an oar
and followed. So far as they knew
none of the others in the party
jumped. Either they could not swim
or were stunned by the explosion.

As soon as news of the disaster
reached here nearly every summer
resident and fisherman who owned a
yacht or launch at once went out in
the bay to search for some trace of
the boat or its occupants, but the
search proved fruitless. The launch
undoubtedly sank with all on board.

No Detective Stories.

St. Petersburg authorities have issued
an order forbidding the students of the
cadet corps to read "Sherlock Holmes"
and other stories of a similar charac-
ter.

A Perambulating Bathroom.
An ingenious Frenchman has discov-
ered a new industry. There are in
Paris, as, of course, in every other
city, many houses that are bathless,
to the great inconvenience of the in-
habitants thereof. The Frenchman in
question, realizing this, has bought a
bath which he lets on hire to any one
who cares to pay the small fee he de-
mands and, moreover, supplies the nec-
essary hot water. His charge is 1
franc 75 centimes per bath, and he ex-
pects a pourboire (tip).

Now the Lizard Hat.
Of all the outlandish fashions which
the present season has ushered in the
wearing of lizard skin hats for the
auto is the worst. The idea makes one
creep, yet those built after the Paris
model look very well. The lizard
skins are mostly from South America.
Killing them there for the Paris mar-
ket, where the lizard hats originated,
is a profitable business.

Lakes in Minnesota.

Duluth, July 13.—News has been
received here from Deer River that
Miss Etta Kennedy, daughter of Mrs.
Frank Kennedy of this city, and Ja-
cob Woodruff of Deer River were
drowned on Ball Club lake. Another
man who was with them in the canoe
saved himself by clinging to the craft
for more than twelve hours before he
was discovered and rescued.

Miss Kennedy was a stenographer
for a real estate firm and had been
visiting friends near Deer River. She
was on her way to take a train when
the canoe was overturned. She was
eighteen years old.

Two Austrians of Chisholm, Minn.,
were drowned in Seven Mile lake.
Their names are Ignar Sysbolitz and
John Jannazak. A third man escaped.
Their boat was capsized.

Sixteen Arrests Made.

Great Falls, Mont., July 13.—Six-
teen arrests have been made at Cul-
bertson in connection with the murder
of John A. Hayes and his eleven-year-
old daughter over a squatter's claim,
which had been located by Walter
Long and later taken up by Hayes
on the ground that Long had aban-
doned the claim. At the inquest Mrs.
Hayes positively identified Walter
Long and his brother Milo as among
the attacking party.

Three Deaths in St. Paul.

St. Paul, July 13.—Three St. Paul
people, two of them directly and one
of them indirectly, were claimed as
victims by the heat. They are Jer-
ry Sullivan, street sweeper, collapsed
and died near his home. Mrs. Julia
Shaughnessy died of exhaustion. Sam-
uel Hammerlee dropped from wagon
on, overcome by heat, the wheels
crushing out his life.

Two Deaths From Heat.

New York, July 13.—New York was
treated to the hottest day of the year,
the thermometer reaching 97.7 de-
grees. Only two deaths from heat
were reported by the police, though
there were several prostrations.

TELEGRAPHIC BREVITIES.

Ten thousand Elks of America are
in Dallas, Tex., attending the conven-
tion of the grand lodge.

Delegates are arriving in Columbus,
O., for the Prohibition national con-
vention, which will be held there next
Wednesday and Thursday.

In Minneapolis George Francis, a
teamster, was prostrated by heat
while driving his team and died short-
ly afterwards at his home.

Thomas J. Bryce, known to sports-
men the country over as president of
the Columbus American Association
Baseball club, died at Columbus, O.

Thomas W. Haskins, the newly ap-
pointed American consul at Swatow,
China, died suddenly at Pottalho, a
seaside resort. He was appointed
from California.

Walter Stewart, ten years of age,
and living with his parents in Minne-
apolis, was drowned at Wildwood, an
amusement resort near St. Paul. The
body was recovered.

A service in memory of Grover
Cleveland was held at the Chicago
auditorium under the auspices of the
Iroquois club, Jacob M. Dickinson be-
ing the chief speaker.

While bathing in the Chippewa river
at Montevideo, Minn., Karl Keisel,
a young man of twenty years, was
seized with cramps and was drowned.
His body was recovered.

... MEN DROWNED

Boat Overturns During Severe
Storm at Baltimore.

FOUR OTHERS ARE MISSING

Three Women and a Man Are Sup-
posed to Have Perished in the Pa-
tascio River—Quartette of Massa-
chusetts Men Drowned.

Baltimore, Md., July 13.—Five men
are known to have been drowned and
three women and a man are believed
to have met a like fate when a severe
wind and rain storm passed over the
harbor of this city. Eight men in a
rowboat were endeavoring to reach
Fort McHenry when the boat cap-
sized. Peter Deitrich, William Dela-
cour, Joseph Lohmiller and Edward
Simmons were drowned. The others
righted the boat and reached the fort
safely.

The overturning of a boat in the
Spring Gardens brought death by
drowning to John Harrington.

The finding of an overturned row-
boat in the Patascio river in which
three women and a man were seen
shortly before the storm leads to the
belief that all four were drowned.
None of the bodies has been recov-
ered.

EXPLOSION ON LAUNCH.

Brings Death to Four Residents of
Massachusetts.

Marion, Mass., July 13.—Four prom-
inent summer residents of this town
and Falmouth met death through an
explosion on board a forty-five foot
launch off here. Two survivors were
picked up after having been in the
water for twelve hours. The dead
are:

Rolland Worthington, Boston; John
T. Trull, Woburn; Joseph S. Beal,
Milton; George Savory, Marblehead,
captain of the launch.

The saved are: A. P. Tarbell, Mar-
blehead; Edward Tucker, Boston.
Tucker, who was clinging to an oar,
and Tarbell, who was supported by a
life preserver, were able to swim,
and they remained together until
picked up by a fisherman.

Neither of the survivors was able
to give the cause of the explosion.
Mr. Tarbell, who owned the launch,
said that the boat started out from
Marion on a short pleasure cruise
and was well out in Buzzards bay
when the explosion occurred. Savory,
the engineer, was blown into the air
and was probably dead when he
struck the water. The boat caught
fire immediately and Tarbell called to
his comrades to leap overboard. He
strapped a life preserver about him-
self and Mr. Tucker seized an oar
and followed. So far as they knew
none of the others in the party
jumped. Either they could not swim
or were stunned by the explosion.

As soon as news of the disaster
reached here nearly every summer
resident and fisherman who owned a
yacht or launch at once went out in
the bay to search for some trace of
the boat or its occupants, but the
search proved fruitless. The launch
undoubtedly sank with all on board.

No Detective Stories.

St. Petersburg authorities have issued
an order forbidding the students of the
cadet corps to read "Sherlock Holmes"
and other stories of a similar charac-
ter.

A Perambulating Bathroom.
An ingenious Frenchman has discov-
ered a new industry. There are in
Paris, as, of course, in every other
city, many houses that are bathless,
to the great inconvenience of the in-
habitants thereof. The Frenchman in
question, realizing this, has bought a
bath which he lets on hire to any one
who cares to pay the small fee he de-
mands and, moreover, supplies the nec-
essary hot water. His charge is 1
franc 75 centimes per bath, and he ex-
pects a pourboire (tip).

Now the Lizard Hat.

Of all the outlandish fashions which
the present season has ushered in the
wearing of lizard skin hats for the
auto is the worst. The idea makes one
creep, yet those built after the Paris
model look very well. The lizard
skins are mostly from South America.
Killing them there for the Paris mar-
ket, where the lizard hats originated,
is a profitable business.

names were not to be learned either
from Mr. Bryan or Dr. Hall. There
is a disposition to leave the final
selection to Mr. Bryan. Dr. Hall ad-
mitted that he had in mind a man
who, he thought, would best fill the
office and that Mr. Bryan had another.
However, it is predicted that the end
of the meeting here will see the chair-
manship a settled fact and many de-
tails of the coming campaign mapped
out, at least in outline.

Campau May Be Named.

Later Mr. Hall said he thought
it safe to say the new chairman would
be one of the following: D. J. Camp-
au, Michigan; J. E. Lamb, Indiana;
Ollie James, Kentucky, or J. H. At-
wood, Kansas.

Mr. Bryan has received numerous
tenders of the services of speakers,
nearly all of them, if their letters are
given full credit, being spellbinders
of resistless appeal. Musicians also
have been early on the ground, to-
gether with men who make banners
and buttons and get out printing and
pictures. Such of these matters as
deserve attention will be turned over
to the national committee.

Among Mr. Bryan's supporters
whose activities will be given the
widest range possible is Governor
Johnson of Minnesota. This word
was given to some forty or fifty of
the Johnson cohorts who went from
Minnesota to Denver to fight for the
governor and called at Fairview. In
token of surrender of the Johnson
forces Lester Elwood gave up his flag
with Johnson's name on it to Mr. Bryan,
the latter declaring that it should
have a conspicuous place among the
trophies of Fairview.

"The fight is over and we're with
you now," was the assurance given
Mr. Bryan by Congressman Hammond,
who placed Governor Johnson in nom-
ination.

This delegation and one which was
returning to Cleveland, O., were the
only formal visitors at Fairview, both

NOVEL RESERVATION.

It is Thirty Feet Wide and Extends
Along Canadian Border.

By proclamation of President Roose-
velt a series of long but extremely
narrow reservations of public land
has been made along the boundary
line between the United States and
Canada. The reservation is only thirty
feet wide, and the length is limited
only by the amount of unappropriated
public land along the boundary line.

The reason for the establishment of
this novel reserve, as stated in the pre-
amble of the president's proclamation,
is that the customs and immigration
laws of the United States can be bet-
ter enforced and the public welfare
thereby better advanced when the fed-
eral government has complete control
of the use and occupation of lands
abutting on international boundary
lines.

BIDS

Bids will be received up to July 18,
1908 at 3 P. M., for building of bank
block as per plans and specifications on
file at Citizens State Bank, Brainerd,
Minn.

NOVEL RESERVATION.

It is Thirty Feet Wide and Extends
Along Canadian Border.

By proclamation of President Roose-
velt a series of long but extremely
narrow reservations of public land
has been made along the boundary
line between the United States and
Canada. The reservation is only thirty
feet wide, and the length is limited
only by the amount of unappropriated
public land along the boundary line.

The reason for the establishment of
this novel reserve, as stated in the pre-
amble of the president's proclamation,
is that the customs and immigration
laws of the United States can be bet-
ter enforced and the public welfare
thereby better advanced when the fed-
eral government has complete control
of the use and occupation of lands
abutting on international boundary
lines.

Making and Saving Money

No valuable thing comes easy.
A fat bank account is a cheer-
ful thing to contemplate, but
to secure it is no snap. No
man can accumulate without
using the services of a good
bank, and there is where we
come in. We help in the sav-
ing process, we make it easy
and convenient to save and we
encourage the habit by paying
you for doing it. If you have
not opened an account yet,
begin next pay day. Get a
start, if only with a five dollar
bill or open a savings account,
which requires only \$1.00 for
the first deposit. You owe it
to your family and yourself to
save something.

A SPUR OF THE MESABA RANGE

Such is the Opinion of C. K. Leith Concerning the Cuyuna Iron Range

ITS DEVELOPMENT IS SURE
The Ore is Low Grade and there Will be no Spectacular Development, However

C. K. Leith, professor of Geology in the University of Wisconsin, who some years ago made an extensive study of the iron formations of the United States and Canada for the United States government, and who is considered one of the authorities of the world on that subject, and who spent Sunday on the Cuyuna range states that the drillings have confirmed the belief expressed by himself and others some years ago that the Cuyuna range as it is now known, is an extension of the Mesaba range, geologically speaking. There is this difference, however, while on the Mesaba range the iron strata lie level and continuous, or nearly so, on the Cuyuna they are inclined, broken and convoluted. When asked as to the reported finds in Otter Tail county he said he had made no investigations in the matter and had no information by which to judge.

When asked as to the commercial future of the Cuyuna range he stated that it was certain to become a productive district, the only question being that of time. The ore found so far was of a low grade, he stated and no spectacular development was to be expected. He was certain, however, that it would be eventually used, and profitably mined.

Mr. Leith and Mr. Zapffe, who is spending the summer here in his employ, spent Sunday in Deerwood, looking over the various prospecting operations in that section.

Mr. Leith is not now in the employ of the United States, as stated in THE DISPATCH Saturday, having severed his connection with the government geological survey about three years ago.

BASE BALL NOTES

The Northern Pacific clerks and the Crescents are to play this evening. The Crescents have been greatly strengthened and a good game is assured.

The North Stars, or at least a portion of them, went to Little Falls yesterday and were defeated. Manager Koop states that there was an error in sending the transportation and it did not arrive, so part of the boys did not go, only four of the regular team playing.

At Aitkin the North Star Juniors defeated the Aitkin team by a score of 12 to 5. This team is certainly playing great ball this season.

FORMED OVER GULL LAKE

The Shower Which Visited Brainerd Yesterday Had its Origin Over That Body of Water

Superintendent Wilson and family spent Sunday at the home of Henry White at Gull lake. Mr. Wilson states that the rain storm which wet down Brainerd and vicinity Sunday afternoon had its origin over Gull lake. Mr. Wilson and Mr. White watched the storm as it gathered and say that it started right over the lake.

There was a heavy rain there and considerable hail fell, enough to make the ground white. Fortunately the hailstones were small and did little or no damage. The water, however, flooded Mr. White's chicken yards, drowning a few of his chickens; not so many as the party ate, however, is the statement of Mr. Wilson, which some of his army comrades say they do not doubt in the least.

Helping a Tartar.

A singular custom prevails among the Tartars or Kurds. If a man gets into difficulties—i. e., loses his cattle or other movable property—he pours a little brown sugar into a piece of colored cloth, ties it up and carries one such parcel to each of his friends and acquaintances. In return he is presented, according to circumstances, with a cow or sheep or a sum of money. He is thus at once set on his legs again.

Y. M. C. A. BOYS CAMP

A Number of the Juniors Went to Nisswa Today to Spend the Week at Batchellor's Cottage

The project of a Y. M. C. A. Boys' camp was thought to be a dead one because hardly enough members could afford the expense of a camp. Through the courtesy of Dr. O. T. Batchellor, however, they will not be obliged to forego their outing, he having offered them the use of his cottage at Nisswa for this week. The party went up this afternoon. Mr. and Mrs. Manville and Miss Marion Long accompanied them and will be in charge of the party. It is probable that Mr. Manville will devote his time between the camp and his work here, one of the older members going up to look after the boys while he is here.

CLEARED OF FAKIRS

Main Building of State Fair Grounds to be Cleared of Fakirs

At the last meeting of the board of managers of the state fair several communications were read from various business concerns of both Minneapolis and St. Paul in reference to the discontinuance of selling space in the aisles to small concessioners. It has been the custom to sell so much space in the aisles of the main building that the exhibitors felt as if they were not warranted in going to the expense of making elaborate exhibits when the aisles were so crowded that their exhibits could not be properly displayed.

As the concessions in this building have always been a big source of revenue to the state fair, the management was naturally reluctant in agreeing to discontinue selling the aisle space, but as nearly all of the exhibitors who have booths in the main building have expressed a desire to pay for their booth in order to recompense the fair management for the loss they would have, they decided to bar the fakirs from the building, and this year's fair will see the main building entirely free from peddlers, of small jewelry novelties, spectacles, etc. This will not only be appreciated by the exhibitor but by the public at large.

BACK FROM IRELAND

Robert McMeekins and Son Thomas Return from Two Month's Visit to Emerald Isle

Robert McMeekin and son Thomas, who left Brainerd May 16, for a visit to Ireland, England and Scotland, returned home Monday morning, having had a fine time. They returned on the steamer Lusitania which made the trip in the record breaking time of four days, 19 hours and 36 minutes. Thomas says he enjoyed the entire trip and would not have missed it for the world, but there is no place like home and Brainerd is good enough for him.

ODD BALLOON TRIP.

Dr. Thomas to Propel the Pommern With Motor Car Engine.

Dr. Julian P. Thomas, whose big spherical balloon, the Pommern, won the Gordon Bennett prize and flew from Philadelphia to New York in six hours last November, announced the other night that he is planning an entirely new experiment in the field of American aeronautics.

"I am going to remove the Pommern's basket," he said, "and suspend the forty horsepower engine of one of my automobiles in its place. I will connect the automobile engine to a long bladed propeller by means of a regular engine shaft. To the front of the engine frame I will fix an aeroplane, which will be manipulated by means of the steering wheel of the automobile. When I make the ascent I will sit on the gasoline tank."

"As a balloon of the Pommern's size is able to lift 2,500 pounds and as the weight of the proposed mechanism will be only 1,500 pounds, I expect to make the new balloon do whatever I want. The engine will propel the balloon through the air faster than it now propels my motor car over the asphalt, because there will be practically no friction between the gearings."

Dr. Thomas said he would make the first ascent from the Astoria gas works, on Long Island.

Plan to Have Stockmen Raise Deer. The department of agriculture believes that deer can be raised the same as beef cattle, and its experts have set themselves to the task of popularizing venison. A bulletin on deer farming will soon be issued. The idea is to have stockmen raise deer just the same as cattle, and experts declare that they are easily raised and require but little care, while their meat commands a high figure. Surprise is expressed that they should not have been raised on a commercial scale long before this. In many states there is a law against killing deer, but it is thought that if farmers started to raise them these laws would be repealed.

The highest authorities on the subject tell us that the milk of goats is much richer than that of the cow in all the nutritive elements, that it goes much further and is far easier of digestion; hence is much better for children and invalids than is cows' milk.—New York American.

TWENTY YEARS AGO

Barnum in all his glory will be in Brainerd August 16.

The prohibitionists will rally in Brainerd next Tuesday.

The Brainerd police force have come out in regulation hats.

Charles White left Tuesday for Osceola, Wis., where he will visit for some days. Mrs. White will return with him.

H. J. Spencer has sold his grocery business on Front street, to A. E. Taylor, who will take possession on the 23d of the present month.

Miss Mary Wieland, of Mt. Gilead, Ohio, arrived in the city Wednesday and will spend the summer with Mr. and Mrs. F. W. Wieland.

Mrs. H. G. Ingersoll, who has been visiting with relatives in Brainerd for the past six weeks, returned to her home in Plover, Wis., on Monday.

Buildings which have before stood on the alleys in the business blocks have been moved in order to make room for the sewer improvements which are to be completed at once.

With several others the Brainerd high school will cease to rank as such unless a formal application is made for the continuance by the school board before August 1st, the three years limit having expired.

J. H. Hallett has received information that 1,000 Indians have left the reservation to begin the blueberry campaign in the woods adjacent to this region. The department order for Agent Sheenan to restrain them from leaving their reservation doesn't seem to have affected things in the least.

It has been stated that over 100 loads of wood have been taken out of the river at Little Falls which was carried away from the bottom lands above Brainerd by the recent floods.

Peter Mertz has made arrangements to start a wholesale and retail cigar store under the First National bank. In connection with this business he will put in several pool and billiard tables.

On Friday evening Brainerd Division U. R. Knights of Pythias was presented with a beautiful banner by the White Cross lodge. Mayor Hemstead made the presentation speech.

From all reports Co. K. succeeded in scooping everything at Lake City and secured all the honors worth having.

Mrs. W. A. Congdon died at her residence in East Brainerd Saturday morning of apoplexy, aged 65 years. The deceased was a lady highly respected in the community and possessed many virtues of heart and mind. She was a devoted Christian lady and her death will be mourned by a large circle of friends in this city.

A Financier.

"Billinger must be a good deal of a financier."

"Has he succeeded in amassing millions?"

"No, but he has succeeded in mortgaging a grand piano for which he is paying on the installment plan, thus raising enough money with which to make the first payment on an automobile."—Chicago Record.

TWO FAMOUS WOMEN

Personality of Mrs. Leavitt and Mrs. Longworth Contrasted.

BOTH VISITORS AT DENVER.

Marked Points of Difference Between the Daughters of Mr. Bryan and President Roosevelt—Reached Convention City Almost at Same Time. "Mrs. S. Holmes, Detective."

Two young women whose presence at the Democratic national convention lent to it grace and beauty as well as a measure of distinction happened to reach Denver recently, as chance would have it, within a few minutes of each other.

One the daughter of a presidential possibility and the other a daughter of a president, they are the direct antithesis of each other. From the west came Mrs. Ruth Bryan Leavitt, primed for the sensation of her life, the excitement of seeing the power of her distinguished father, William Jennings Bryan, in the Democratic national convention. Out of the east, for a genuine vacation and a good time, arrived Mrs. Nicholas Longworth, formerly Alice Roosevelt.

The trains on which the women traveled almost met at the Union station, but the distinguished visitors did not. President Roosevelt's daughter was hurried in a special cab to an isolated corner of the railroad yards to await the arrival of an automobile to take her away from the curious gaze of the masses. The daughter of the commoner stepped lightly from the train unassisted and walked briskly to a plain, everyday street car at the nearest corner. In personal appearance they are as unlike as it would be possible for two women to be, and in character, in training, in ambition, there are no parallels.

Mrs. Leavitt is taller than the average woman, slender, dark, with the brownest of brown eyes and the manners of a diplomat. She is without affectation of manner, has plenty of good sense and is a good talker. Her mother's gentle manner and her father's quickness of repartee have given her both charm and wit. Apropos of this gift a story is told which states that Mrs. Leavitt had never regarded Mr. Bryan's political ambitions very seriously. When he was defeated for the presidency the first time she considered it a rather good joke. She was then twelve years old. Racing one day for a street car, which she caught, she announced to a group of schoolgirl friends, who congratulated her on her sprinting abilities, "I'm a better runner than papa any time." However, in her father's second campaign she was more of a partisan. She attended the Kansas City nominating convention and accompanied him on some of his tours.

Ever since she was fifteen years old Mrs. Leavitt has contributed articles to her father's newspaper, the Commoner. Her writings afford evidence of maturity of mind and rare power of reasoning. According to her own statement, it was during a vaudeville performance in a Denver playhouse that Mrs. Leavitt threw up her hands and exclaimed to her girl companions: "Pshaw, how perfectly foolish! I could write a better sketch than that myself."

It so happened that one of the girl companions rather liked the little skit they had just witnessed, so she said, "I bet you couldn't, Ruth." The latter, being the daughter of William Jennings Bryan, who doesn't take dares, went home and rattled off a one act playlet entitled "Mrs. S. Holmes, Detective."

Ruth evidently won the bet, for the playlet has been on the boards of a New York vaudeville house, and the critics were kind and even indulgent to it.

Mrs. Leavitt does not like to be called a politician, although she is enough of the diplomat to be one. She votes, as a great many Colorado women do, but there never has been any especial activity in time of campaign. It is tacitly understood that Mr. Bryan has given strict instructions to his daughter to keep out of partisan conflicts and to be as inconspicuous as she consistently can be. Mrs. Leavitt is president of the Jane Jefferson Democratic club, but while abroad and in western Colorado she absented herself from its councils for months.

Instead of trading on the name of her father, Mrs. Leavitt has battled for individual distinction and has relegated society to the background, while she struggles to find her place in the general scheme of things. Mrs. Longworth, who has been called "Princess Alice" by the orientals, is of medium height, plump, blond, with great animated blue eyes and pretty ways. She is not the pampered child of fortune. The affected, because she is first of all an American girl, but a woman who appreciates attention and expects it by virtue of being the daughter of her father.

About the same age as Mrs. Leavitt, she looks no younger than the daughter of the commoner, but is the type of girl on whom trouble weighs lightly. She has all the little hearted gaiety within her own nature to get pleasure out of everything that comes her way, and not only to get it for herself, but to extend it to others.

While at the White House before her marriage Mrs. Longworth used to amuse her girl friends immensely by doing acrobatic stunts for them after dinner while waiting for the men to finish their cordials and cigars in the dining room. Out in the middle of

gathering—but I love a crowd, and I love the waving flags, and I love the enthusiasm which a meeting of this kind provokes. And I think, too, that I love Colorado."

Mrs. Longworth hails from a part of the country where the women stand in holy horror of the suggestion of marking a ballot. She possibly would not bother to vote if the right of suffrage were hers.

BAN ON COLORED SHIRTS.

London Lancet Says a Man Who Wears Them is a Sloven.

According to the London Lancet, a man who wears colored shirts is a sloven. This fastidious medical journal also declares that colored handkerchiefs are an abomination.

"When a man finds it convenient to wear colored shirts and cuffs," is the medical journal's lofty argument, "it means in reality that he can carry dirt for a little longer without giving offense than if he wore spotlessly white material."

"Materials which do not compel constant changes by becoming offensive to the eye, if ever so slightly soiled, are bound to be worn too long. Again, by wearing only religiously clean linen a man reduces the chances of picking up bacteria."

But the World Went On.

In 1186 astrologers said the world would be destroyed by the conjunction of the planets. A few years later another alarm was raised, and in 1532 Simon Goulart claimed a mountain had opened in Assyria and a scroll had been shown him on which was written the prediction that the world was coming to an end. He frightened everybody.

A SPUR OF THE MESABA RANGE

Such is the Opinion of C. K. Leith Concerning the Cuyuna Iron Range

ITS DEVELOPMENT IS SURE

The Ore is Low Grade and there Will be no Spectacular Development, However

C. K. Leith, professor of Geology in the University of Wisconsin, who some years ago made an extensive study of the iron formations of the United States and Canada for the United States government, and who is considered one of the authorities of the world on that subject, and who spent Sunday on the Cuyuna range states that the drillings have confirmed the belief expressed by himself and others some years ago that the Cuyuna range as it is now known, is an extension of the Mesaba range, geologically speaking. There is this difference, however, while on the Mesaba range the iron strata lie level and continuous, or nearly so, on the Cuyuna they are inclined, broken and convoluted. When asked as to the reported finds in Otter Tail county he said he had made no investigations in the matter and had no information by which to judge.

When asked as to the commercial future of the Cuyuna range he stated that it was certain to become a productive district, the only question being that of time. The ore found so far was of a low grade, he stated and no spectacular development was to be expected. He was certain, however, that it would be eventually used, and profitably mined.

Mr. Leith and Mr. Zapffe, who is spending the summer here in his employ, spent Sunday in Deerwood, looking over the various prospecting operations in that section.

Mr. Leith is not now in the employ of the United States, as stated in THE DISPATCH Saturday, having severed his connection with the government geological survey about three years ago.

BASE BALL NOTES

The Northern Pacific clerks and the Crescents are to play this evening. The Crescents have been greatly strengthened and a good game is assured.

The North Stars, or at least a portion of them, went to Little Falls yesterday and were defeated. Manager Koop states that there was an error in sending the transportation and it did not arrive, so part of the boys did not go, only four of the regular team playing.

At Aitkin the North Star Juniors defeated the Aitkin team by a score of 12 to 5. This team is certainly playing grand ball this season.

FORMED OVER GULL LAKE

The Shower Which Visited Brainerd Yesterday Had its Origin Over That Body of Water

Superintendent Wilson and family spent Sunday at the home of Henry White at Gull lake. Mr. Wilson states that the rain storm which wet down Brainerd and vicinity Sunday afternoon had its origin over Gull lake. Mr. Wilson and Mr. White watched the storm as it gathered and say that it started right over the lake.

There was a heavy rain there and considerable hail fell, enough to make the ground white. Fortunately the hailstones were small and did little or no damage. The water, however, flooded Mr. White's chicken yards, drowning a few of his chickens; not so many as the party ate, however, is the statement of Mr. Wilson, which some of his army comrades say they do not doubt in the least.

Helping a Tartar.

A singular custom prevails among the Tartars or Kurds. If a man gets into difficulties—i. e., loses his cattle or other movable property—he pours a little brown sugar into a piece of colored cloth, ties it up and carries one such parcel to each of his friends and acquaintances. In return he is presented, according to circumstances, with a cow or sheep or a sum of money. He is thus at once set on his legs again.

Y. M. C. A. BOYS CAMP

A Number of the Juniors Went to Nisswa Today to Spend the Week at Batchelor's Cottage

The project of a Y. M. C. A. Boys' camp was thought to be a dead one because hardly enough members could afford the expense of a camp. Through the courtesy of Dr. O. T. Batchelor, however, they will not be obliged to forego their outing, he having offered them the use of his cottage at Nisswa for this week. The party went up this afternoon. Mr. and Mrs. Manville and Miss Marion Long accompanied them and will be in charge of the party. It is probable that Mr. Manville will divide his time between the camp and his work here, one of the older members going up to look after the boys while he is here.

CLEARED OF FAKIRS

Main Building of State Fair Grounds to be Cleared of Fakirs

At the last meeting of the board of managers of the state fair several communications were read from various business concerns of both Minneapolis and St. Paul in reference to the discontinuance of selling space in the aisles to small concessioners. It has been the custom to sell so much space in the aisles of the main building that the exhibitors felt as if they were not warranted in going to the expense of making elaborate exhibits when the aisles were so crowded that their exhibits could not be properly displayed.

As the concessions in this building have always been a big source of revenue to the state fair, the management was naturally reluctant in agreeing to discontinue selling the aisle space, but as nearly all of the exhibitors who have booths in the main building have expressed a desire to pay for their booth in order to recompense the fair management for the loss they would have, they decided to bar the fakirs from the building, and this year's fair will see the main building entirely free from peddlers, of small jewelry novelties, spectacles, etc. This will not only be appreciated by the exhibitor but by the public at large.

BACK FROM IRELAND

Robert McMeekins and Son Thomas Return from Two Month's Visit to Emerald Isle

Robert McMeekin and son Thomas, who left Brainerd May 16, for a visit to Ireland, England and Scotland, returned home Monday morning, having had a fine time. They returned on the steamer Lusitania which made the trip in the record breaking time of four days, 19 hours and 36 minutes. Thomas says he enjoyed the entire trip and would not have missed it for the world, but there is no place like home and Brainerd is good enough for him.

ODD BALLOON TRIP.

Dr. Thomas to Propel the Pommern With Motor Car Engine.

Dr. Julian P. Thomas, whose big spherical balloon, the Pommern, won the Gordon Bennett prize and flew from Philadelphia to New York in six hours last November, announced the other night that he is planning an entirely new experiment in the field of American aeronautics.

"I am going to remove the Pommern's basket," he said, "and suspend the forty horsepower engine of one of my automobiles in its place. I will connect the automobile engine to a long bladed propeller by means of a regular engine shaft. To the front of the engine frame I will fix an aeroplane, which will be manipulated by means of the steering wheel of the automobile. When I make the ascent I will sit on the gasoline tank."

"As a balloon of the Pommern's size is able to lift 2,500 pounds and as the weight of the proposed mechanism will be only 1,500 pounds, I expect to make the new balloon do whatever I want. The engine will propel the balloon through the air faster than it now propels my motor car over the asphalt, because there will be practically no friction between the gearings."

Dr. Thomas said he would make the first ascent from the Astoria gas works, on Long Island.

Plan to Have Stockmen Raise Deer.

The department of agriculture believes that deer can be raised the same as beef cattle, and its experts have set themselves to the task of popularizing venison. A bulletin on deer farming will soon be issued. The idea is to have stockmen raise deer just the same as cattle, and experts declare that they are easily raised and require but little care, while their meat commands a high figure. Surprise is expressed that they should not have been raised on a commercial scale long before this. In many states there is a law against killing deer, but it is thought that if farmers started to raise them these laws would be repealed.

The highest authorities on the subject tell us that the milk of goats is much richer than that of the cow in all the nutritive elements, that it goes much further and is far easier of digestion; hence is much better for children and invalids than is cows' milk.

TWENTY YEARS AGO

Barnum in all his glory will be in Brainerd August 16.

The prohibitionists will rally in Brainerd next Tuesday.

The Brainerd police force have come out in regulation hats.

Charles White left Tuesday for Oscoda, Wis., where he will visit for some days. Mrs. White will return with him.

H. J. Spencer has sold his grocery business on Front street, to A. E. Taylor, who will take possession on the 23d of the present month.

Miss Mary Wieland, of Mt. Gilead, Ohio, arrived in the city Wednesday and will spend the summer with Mr. and Mrs. F. W. Wieland.

Mrs. H. G. Ingersoll, who has been visiting with relatives in Brainerd for the past six weeks, returned to her home in Plover, Wis., on Monday.

Buildings which have before stood on the alleys in the business blocks have been moved in order to make room for the sewer improvements which are to be completed at once.

With several others the Brainerd high school will cease to rank as such unless a formal application is made for the continuance by the school board before August 1st, the three years limit having expired.

J. H. Hallett has received information that 1,000 Indians have left the reservation to begin the blueberry campaign in the woods adjacent to this region. The department order for Agent Sheenan to restrain them from leaving their reservation doesn't seem to have affected things in the least.

It has been stated that over 100 loads of wood have been taken out of the river at Little Falls which was carried away from the bottom lands above Brainerd by the recent floods.

Peter Mertz has made arrangements to start a wholesale and retail cigar store under the First National bank. In connection with this business he will put in several pool and billiard tables.

On Friday evening Brainerd Division U. R. Knights of Pythias was presented with a beautiful banner by the White Cross lodge. Mayor Hemstead made the presentation speech.

From all reports Co. K. succeeded in scooping everything at Lake City and secured all the honors worth having.

Mrs. W. A. Congdon died at her residence in East Brainerd Saturday morning of apoplexy, aged 65 years. The deceased was a lady highly respected in the community and possessed many virtues of heart and mind. She was a devoted Christian lady and her death will be mourned by a large circle of friends in this city.

the floor she would go and do a skirt dance or a gymnastic feat, such as putting her foot on the back of her neck or some other equally difficult proposition. When the men, hearing the shrieks of laughter coming from the drawing room, would hasten in to learn the cause, they would find Miss Alice sitting at the piano rattling off a coon song or gay chanson. Mrs. Longworth is quick as lightning at repartee. One night at a diplomatic reception at the White House she was talking with a young German attaché. The diplomatist was resident in a gorgeous uniform, his chest covered with decorations, the significance of which Miss Alice was inquiring into. Naming them over, he pointed to one and said in his broken English, "Zat is ze order of ze seven keeses." Quick as a flash she answered, "I'll give you ten for it." But the German was not a true sportsman and did not take her up.

That same evening Miss Roosevelt retired to a corner of one of the White House drawing rooms and matched quarters with a young officer. She won, leaving him with a triumphant face and calling back over her shoulder, "Remember you owe me two dollars and a half." This shocked some good people, but what's the difference, pray, between matching coins and playing bridge?

Like father, like son, is a saying as old as the hills, but it should be in this instance like sire, like daughter, for the eldest child of the president has been as he himself has always been, independent. What she would do she does.

She is a crack shot, as was proved one day at Coney Island. After seeing everything that was to be seen, shaking hands with some Filipinos whom she had encountered at the St. Louis exposition and having, as she expressed it, "the time of her life," Mrs. Longworth (then Miss Roosevelt) stopped at a Wild West shooting gallery, seized a gun and hit the bullseye three times out of five.

"Waal, Miss Roosevelt, you can shoot some," said the owner of the gallery. "I knew your father out west."

"Does he shoot any better than I do?" was the girl's laughing response. But the wild westerner was wise in his generation and sidestepped the question.

Mrs. Longworth is a first class horse-woman and a sleight of hand performer of more than amateur ability.

The Republican convention was also attended by Mrs. Longworth, who had such a lovely time at Chicago that she went on to Denver impulsively to follow up the excitement.

Fond of a good time and eager for gaiety, Mrs. Longworth smilingly said as she stepped from a special car:

"I have no earthly interest in the convention—that is, I mean I don't care about the political phases of the

Mrs. Longworth hails from a part of the country where the women stand in holy horror of the suggestion of marking a ballot. She possibly would not bother to vote if the right of suffrage were hers.

BAN ON COLORED SHIRTS.

London Lancet Says a Man Who Wears Them is a Sloven.

According to the London Lancet, a man who wears colored shirts is a sloven. This fastidious medical journal also declares that colored handkerchiefs are an abomination.

"When a man finds it convenient to wear colored shirts and cuffs," is the medical journal's lofty argument, "it means in reality that he can carry dirt for a little longer without giving offense than if he wore spotlessly white material."

"Materials which do not compel constant changes by becoming offensive to the eye, if ever so slightly soiled, are bound to be worn too long. Again, by wearing only religiously clean linen a man reduces the chances of picking up bacteria."

But the World Went On.

In 1186 astrologers said the world would be destroyed by the conjunction of the planets. A few years later another alarm was raised, and in 1532 Simon Goulart claimed a mountain had opened in Assyria and a scroll had been shown him on which was written the prediction that the world was coming to an end. He frightened everybody.

"Sunny Jim" Sherman

Character Study of the Republican Vice Presidential Candidate—Hearty Handshaker With a Spreading Smile. Warhorse in Legislative Service, With Veteran Branded All Over Him.

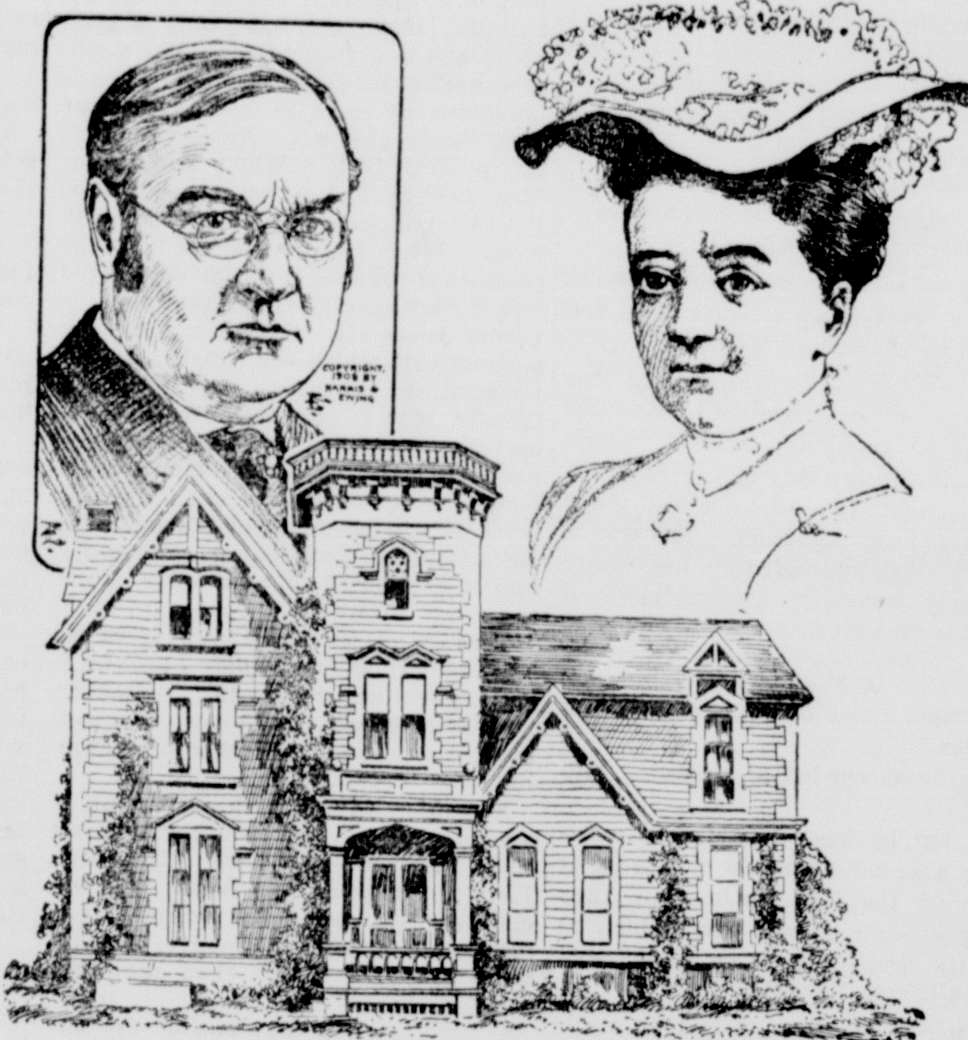

By ROBERTUS LOVE.

EVERY four years one of the big political parties nominates for vice president of the United States a man who is not generally known. With the exception of Theodore Roosevelt, who had something of a war reputation, no vice presidential nominee since Thomas A. Hendricks, for the Democrats, and John A. Logan, for the Republicans, in 1884, has enjoyed a national reputation prior to his being made the tail of the presidential campaign kite. Consequently the public is entitled to ask "Who's who?" on the tall end. This demand for information is the which and why of the present sketch of James Schoolcraft Sherman, nominated on the Taft ticket.

Yet the Republican vice presidential candidate is by no means an unknown man. Mr. Sherman is widely known among national politicians, though until his name was sent broadcast throughout the world from the Chicago convention it was not a household word. This is a mighty big country. A man may enjoy a wide acquaintance with the leading politicians and statesmen, he may be highly esteemed by them, he may possess signal abilities as an officeholder and yet be practically unheard of in the homes of the great common people. That seems to be Jim Sherman's status. For nearly twenty years Mr. Sherman has been a very active and aggressive member of congress. Once he was a close competitor for the speakership. He has held the chairmanship of important com-

mittees, he has managed a campaign as chairman of the Republican congressional committee, yet if you live outside of New York state did you ever hear of James S. Sherman?

The nominee for vice president might have been today the best known man in America but for a cute political trick played by Boss Platt and other political tricksters at the Republican national convention in 1900. Mr. Sherman was a prominent candidate for the vice presidential nomination on the ticket with McKinley that year. The nomination probably lay between him and Jonathan P. Dolliver of Iowa. Governor Roosevelt of New York could have had the nomination for the asking, but he didn't ask for it because he didn't want it. But Senator Platt, who didn't like Roosevelt, wanted to shove the governor out of New York state politics by making him vice president. Curiously enough, Platt liked Sherman, though he prevented the latter from securing the nomination. Roosevelt simply had to pluck the plum when it was dangled in his teeth. So Sherman missed his chance to succeed McKinley as president. Really, the things that don't happen in politics are almost as interesting as the things that do.

JAMES S. SHERMAN. MRS. JAMES S. SHERMAN.
FAIRVIEW, THE NOMINEE'S HOME IN UTICA, N. Y.

Uticans Proud of Him.

Mr. Sherman lives in Utica, N. Y. He was born there nearly fifty-three years ago. He is a couple of years older than his running mate and some seventy-five pounds lighter, though himself a heavy-weight physically. He touches the 225 pound notch. His home has been in Utica from his birth, just as Mr. Taft's home has been in Cincinnati ever since he was born. Of course Mr. Taft has sojourned in the Philippines and at Washington on official business, and Mr. Sherman's temporary abode has been Washington during congress sessions for ten terms. But he is Jim Sherman of Utica, and all Uticans are proud of the fact.

Originally the nominee was a Democrat, but he got over it early. It is related that his sagacious sire raked the

senate and look patient while the real members are making sounds like words on the floor. The parliamentary laws which govern the house, though, are quite different from the easy going senatorial rules. The senate is ruled by courtesy, the velvet gavel; the house by autocracy, the mailed fist.

Congressman Champ Clark of Missouri, who, don't forget, is a Democrat, once took occasion to emit a sarcastic roar about the real rulers of the house. He called them the "big five," and he called the big five by their names. As he named each man he commented upon that man's status in the quintet. These five men, said Mr. Clark, held the fate of the house absolutely in their hands. He mentioned Speaker Cannon, Sen. E. Payne, John D. Russell and Tawney of Minnesota. Then when half the members had their ears pointed for the fifth name Mr. Clark said as he walked out of the hall:

"The last one is Jim Sherman, and he is the slickest of the bunch."

Thereafter for a time Mr. Sherman was called "Slick Jim." This characterization by Clark was taken to mean that the Utica member was a slick article in a complimentary sense—a congressman who knew what was what in the business of running congress in the interests of his own party.

Likes to Be Jimmed.

But there is another nickname for the nominee which sounds better. In Utica, and in congress as well, they call him "Sunny Jim." That signifies a sunny disposition. It is an interesting fact that both the Republican candidates are men with the hearty handshake and the spreading smile. Despite his judicial dignity, the secretary of war does not object to being called Bill by his intimates. Mr. Sherman, it is said, likes to be Jimmed even more than Mr. Taft likes to be Billed. You may recall that when Taft and Sherman met in Cincinnati a day or so after their nomination the party of the first part said to the party of the second part of the ticket:

"Hello, Jim, old boy! Hello for you!"

Kings do not greet each other thus—at any rate not in public. It is a thing for republican institutions that two men who expect to become the highest officers in the government are human enough to talk like ordinary men.

Taft and Sherman each took a college diploma in 1878. Sherman found his sheepskin at Hamilton college, near his home. Taft's bears the Yale watermark. Five years ago Hamilton made Mr. Sherman an LL. D. Sherman is a lawyer and has been one ever since 1880, when he began practicing in his home city. Though serving ten terms in congress, he has not wholly given up his practice. Truly a man of affairs is this Republican nominee. He is president of the Utica Trust and Deposit company, vice president of a regular banking institution, president of a canning company and a director in a tin can factory. He is also the head of the Utica Ice concern.

Two or three times heretofore Sherman has tried to get out of the congress business, but his constituents wouldn't let him. President McKinley offered him the office of general appraiser of the port of New York in 1899, and he was about to accept when Uticans met in mass meeting and protested so vigorously that he decided to remain in congress. It was not that they loved the port of New York less, but Sherman more. The smile of Sunny Jim was wanted in Washington, where it gave Utica and the rest of the district a fine reputation for geniality.

Bells Rung in His Honor.

Not long ago there was some sporadic talk in New York state about running Mr. Sherman for governor in the event of Governor Hughes not being a candidate; also there was talk of sending the Utican to the senate to succeed Thomas C. Platt. But Mr. Sherman and his friends in the Chicago convention concluded to steal a march on Dame Rumor by really nominating the subject of all these tentative honors. Utica, of course, was highly pleased. She poured out a pent-up Utica of enthusiasm, Mayor Tom Wheeler wiring home from Chicago to his secretary, "Ring the bells!" And the bells were rung. It is not every day that our next door neighbor gets nominated for vice president.

In fact, even New Hartford rejoiced and got exceedingly glad when the news came from Chicago. New Hartford is the site of the canning factory. It is connected with Utica by trolley Sanford Sherman, brother of the nominee, lives out there. He received a telegram about noon to the effect that Jim was nominated. President Jones of the village fired a cannon, whistles on all the factories were blown, including the canning factory, bells were rung and tin cans rattled. "The demonstration lasted nearly half an hour," concisely states the correspondent from New Hartford. That's as long as the demonstration for Mr. Taft at Chicago.

In congress Mr. Sherman is a hard worker. He has had a great deal of important committee experience. At present he is chairman of the committee on Indian affairs. He is a deep student of the Indian problem and is accounted an authority on the noble red man. Some time ago a new congressman showed surprising familiarity with Indian affairs. Sherman jocularly protested to Speaker Cannon that he should keep that young man down.

"Why so?" asked Uncle Joe. "He's trying to cop my laurels as an expert on Indians," replied the Utican. "Hub!" ejaculated Uncle Joe. "Neither of you fellows would know a live Indian from a cigar sign."

The nominee's wife is a woman of engaging qualities. She was a leader in the recent organization of the Congressional club at Washington, the membership being limited to the wives of senators and representatives. Formerly she was active socially and won renown as an entertainer, but of late she has withdrawn from the social whirl because of poor health. Mrs. Sherman was Miss Carrie Babcock. The Shermans have three sons, all young fellows in their twenties and all bright and popular. Sherrill, the eldest, is in the banking business with his father. Richard is professor of mathematics in Hamilton college. Thomas Moore Sherman, the youngest son, is an official in a Utica business concern. The only girl in the Sherman family is the baby daughter of Sherrill.

Congressman Sherman is the first Republican in a long line of Shermans who have been Democrats since the party was born. General Richard Updyke Sherman, his father, had good reason to renege when his son became a Republican. Even the brothers of the nominee are Democrats. One of them once went on the stump against Brother Jim in a campaign.

Great Home Lover.

Jim Sherman is mighty popular in Utica. His funny little side whiskers, too small to be obtrusive, are the only pair of the kind in Onondaga county. It is said that their possessor likes to have his whiskers mentioned. They are sure to be mentioned frequently in this campaign.

Mr. Sherman loves to be at home with his folks in the roomy house on Genesee street, where he spends much time reading. He likes the newspapers. His favorite book, "David Harum," he rereads every summer. He is chairman of the board of trustees of Christ Presbyterian church of Utica and treasurer of the church.

Now comes the most important fact in connection with this human document. Mr. Sherman is a baseball fan! He attended three games while in Chicago for the convention and would have attended another on Friday if the other fellows hadn't nominated him for vice president.

WOUNDS TWO PERSONS.

Michigan Man Then Tries to End His Own Life.

Cleveland, O., July 13.—Anthony Hassler, twenty-eight years of age, of Flint, Mich., shot and wounded his wife, fatally wounded her sister, caused his mother-in-law to be injured, shot at his father-in-law and two unknown men and then attempted to end his own life here. Hassler and his wife were separated, and the police say, inflamed with jealousy over a report that his wife was about to seek a divorce, he went to the home of her parents, Mr. and Mrs. George Kilger, and, bursting open the front door, fired upon his wife. She was shot through the left shoulder. Hassler, the police say, then shot her sister, Mrs. Rose Herrman, through the breast, fatally wounding her. As Kilger, the father-in-law, and the two young men callers at the home attempted to escape through a front door, Hassler fired at them, but missed. Mrs. Kilger, while running, fell and struck her head against a table, sustaining a slight injury.

Hassler then went to the street and fired a bullet into his right temple. As he lay upon the pavement Hassler again put the revolver to his head and fired. He is not expected to live.

young man over the coals when he changed his politics. An elder brother of Jim had been elected mayor of Utica. "And he was elected as a Democrat. Jim; don't forget that," said Pater Sherman.

The younger son laughed softly and took off his coat, metaphorically. He went to work and at twenty-nine found himself elected mayor of Utica.

"And I was elected as a Republican. Dad; don't forget that," said Mayor Jim.

Then "dad" smiled softly.

Parliamentarian of Note.

After serving his mayoralty term young Sherman was elevated to congress. He has kept his elevation ever since, save for one term, when a Democratic landslide dumped him. There are but half a dozen men in congress with longer service records. Congressman Sherman is a warhorse in legislative service, with veteran brands all over him. Fellow members whose opinions are worth something have declared that he is the best parliamentarian in either branch of congress. He has presided over the house times without number.

During the Reed speakership Sherman was next to the throne. He was a close personal and partisan friend of Speaker Reed. When the "czar" found it necessary or convenient to surrender the gavel for a time he usually called Sherman to the chair. Undoubtedly such experience is calculated to qualify a man for the vice presidency, the chief duty of which is to sit above the

Sherman jocularly protested to Speaker Cannon that he should keep that young man down.

"Why so?" asked Uncle Joe. "He's trying to copy my laurels as an expert on Indians," replied the Utican. "Huh!" ejaculated Uncle Joe. "Neither of you fellows would know a live Indian from a cigar sign."

The nominee's wife is a woman of engaging qualities. She was a leader in the recent organization of the Congressional club at Washington, the membership being limited to the wives of senators and representatives. Formerly she was active socially and won renown as an entertainer, but of late she has withdrawn from the social whirl because of poor health. Mrs. Sherman was Miss Carrie Babcock. The Shermans have three sons, all young fellows in their twenties and all bright and popular. Sherrill, the eldest, is in the banking business with his father. Richard is professor of mathematics in Hamilton college. Thomas Moore Sherman, the youngest son, is an official in a Utica business concern. The only girl in the Sherman family is the baby daughter of Sherrill.

Congressman Sherman is the first Republican in a long line of Shermans who have been Democrats since the party was born. General Richard Updike Sherman, his father, had good reason to renege when his son became a Republican. Even the brothers of the nominee are Democrats. One of them once went on the stump against Brother Jim in a campaign.

Great Home Lover.

Jim Sherman is mighty popular in Utica. His funny little side whiskers, too small to be obtrusive, are the only pair of the kind in Onondaga county. It is said that their possessor likes to have his whiskers mentioned. They are sure to be mentioned frequently in this campaign.

Mr. Sherman loves to be at home with his folks in the roomy house on Genesee street, where he spends much time reading. He likes the newspapers. His favorite book, "David Harum," he rereads every summer. He is chairman of the board of trustees of Christ Presbyterian church of Utica and treasurer of the church.

Now comes the most important fact in connection with this human document. Mr. Sherman is a baseball fan! He attended three games while in Chicago for the convention and would have attended another on Friday if the other fellows hadn't nominated him for vice president.

WOUNDS TWO PERSONS.

Michigan Man Then Tries to End His Own Life.

Cleveland, O., July 13.—Anthony Hassler, twenty-eight years of age, of Flint, Mich., shot and wounded his wife, fatally wounded her sister, caused his mother-in-law to be injured, shot at his father-in-law and two unknown men and then attempted to end his own life here. Hassler and his wife were separated, and the police say, inflamed with jealousy over a report that his wife was about to seek a divorce, he went to the home of her parents, Mr. and Mrs. George Kilger, and, bursting open the front door, fired upon his wife. She was shot through the left shoulder. Hassler, the police say, then shot her sister, Mrs. Rose Herrman, through the breast, fatally wounding her. As Kilger, the father-in-law, and the two young men callers at the home attempted to escape through a front door, Hassler fired at them, but missed. Mrs. Kilger, while running, fell and struck her head against a table, sustaining a slight injury.

Hassler then went to the street and fired a bullet into his right temple. As he lay upon the pavement Hassler again put the revolver to his head and fired. He is not expected to live.

Hot in Boston.

Boston, July 13.—One death and half a dozen prostrations marked another exceedingly hot day in Boston, during which the temperature soared to 97. According to the official reports it was the hottest day of the year.

Serious Forest Fires.

Utica, N. Y., July 13.—Serious forest fires are reported in the Adirondacks and along the Mohawk and Malone railroad. The railroad authorities have two special fire trains out, but reports are not reassuring.

Engineer and Fireman Killed.

Columbus, O., July 13.—William Wetternan, engineer, and H. H. Baus, fireman, both of Columbus, were killed by the explosion of the boiler of a Hocking Valley freight locomotive while standing at Powell station, sixteen miles north of Columbus.

Freddy—Ma, what is baby's name? Ma—The baby hasn't any name. Freddy—Then how did he know he belonged here?
